

Lori Markman Artist Statement and BIO

Soulless, brain-dead, malevolent, zombie creatures mindlessly following a google-eyed, orange-haired, lunatic baby. Bugs swarm over the surface of the canvas. This is a political painting. This painting is the third painting in my political painting series.

I am a Los Angeles artist. I have a BA from UCLA in Fine-Art, Painting. I have shown my work in exhibitions all over the US. This is my third time showing in the Annual Juried Made in California Show at the Brea Municipal Gallery.
